

# Horizontal Storage Tanks

## Features-

- Stable and rigid base
- Leakage-resistant
- Anti-corrosive
- High capacity
- Capable of sustaining high temperature and pressure
- Equipped with liquid level controller to avoid overflow

## Applications-

- Pharmaceutical raw materials
- Chemicals
- Food items
- Dairy products
- Cosmetic items

# Fuel Day Tank

Our in-depth knowledge and industrial expertise enable us to offer a distinguished range of fuel day tank. We use optimum quality raw material that is procured from the most trustworthy sources of the market and designed these tanks in compliance with the set industry norms. To make a flawless dispatch from our end, offered range is rigorously inspected by our quality inspectors against various parameters.

## Features:

- Long service life
- Precisely designed
- Strong construction
- Horizontal Orientation, Leg Support, High Temperature Resistant, Level Indicator Equipped, Any Types, Vertical Orientation

# Fuel Station Canopy

Being a quality-oriented entity, we are engaged in offering Fuel station Canopy to the clients. We carry out our operations from Rajasthan, India. Under this, we offer ESSAR Petrol Pump Canopy and IOCL Petrol Pump Canopy. We use the top-notch grade materials and pioneering techniques for manufacturing it. We offer it in various designs and specifications, as per the client's requirements. It is highly demanded by the leading petrol pumps, all across the country. Its key features like high strength, corrosion resistance, and perfect finish are highly admired by our clients. We offer it at a highly reasonable rate.

# Granby Car

The GB Cars, offered by the company, are used in underground mines. The main use of the Granby Car is the transportation of mine ores

## Attributes Of GB Car

- Highly durable
- Quality assured
- Made using the best raw materials
- Very strong

# Diesel Fuel Bowser

Fuel Bowser designed for carrying fuel requirements of the equipment located in tarmac and can go out of the aircraft complex in a safe manner.

Ergonomically designed in ISO 9001 quality controlled And PESO Approved manufacturing environment, safe to use, the bowser is available in towable as well as in a self propelled version. Fuel can be dispensed using DC motor powered by a battery as well as by a hand pump with calibrated meter displays the amount of fuel displaced.

# Bottom Loading Tankers

Enriched by our vast industrial experience in this Field, we are involved in offering an enormous quality range of Lubricant Oil Loading Tanker.

Salient features of our Bottom Loading Tanker:-

- Capacity ranging from 500 litres to 25000 litres on Rigid chassis.
- Tank material and thickness: As recommended by CCOE, IS 2062 grade steel with 3.15 mm thickness is used.
- Security locking system are Installed as per regulation and guidelines of CCOE.
- Full-length Z section bottom support: The tank is mounted on a full-length Z section bottom support to ensure safety of main chassis frame.
- Chassis-body integration using U-bolts and U-bolt guides.
- Strongly built Mudguards, Side guards and Bumper for safety.
- Manually operated Foldable Handrail system on the Top of the Tanker for safety of personnel.
- Bottom loading & Vapour recovery system of reputed companies as per the choice of the customer.
- Valve box with Locking system.
- Sand-Blasting and PU quality paint for safety against Rust and Fuel evaporation loss.

# Tanker Lorry

This tanker is precision engineered and ensures longer functional life. The complete range of our product is manufactured using premium grade base material sourced from authentic dealers of the industry.

Features:

- Long life
- Ruggedness
- High tensile strength

# Water Sprinkler Tanker

Our organization has successfully expanded its business in market owing to the offered elevated quality range of Water Sprinkler Tanker.

## Features:

- Maintenance free
- Optimum functionality
- Durability
- Applicable for spraying water to clean the road and dust on construction sites

# Portable Cabins

We at Creative Porta Cabins (A Unit Of Creative Engineers) specialize in manufacturing and supplying of all types of Portable Cabins which can be used as Site office, Security Guard cabin, Portable Toilets, Container Cabins, Accommodation Cabins, Shipping Container Office, Storage Cabins, E-House, Bunkhouse, Container Homes and other Modular Buildings.

Our highly skilled staff can meet virtually any reasonable request – and we take pride in the high quality of our cabins. From inquiry to delivery, you will receive top quality service, and we guarantee that no matter how complex your specification we will deliver you the same build priority as a more conventional project. We love challenges – and we don't delay when it comes to delivery. Our products/structures are engineered using state of the art equipment and technology, ensuring maximum longevity and low total life costs for our clients.

# Explosive Van Fabrication

Explosive Van Bodies will be fabricated as per the Explosive rules and regulations prescribed by the concerned authority. The frame structure will be mild steel, exterior and interior panels will be aluminum. Exterior rivetting will be by means of riveting/screws. Interior shall be used with brass screws and nails. Interior floor covered with aluminum sheets duly top fitted with wooden reapers. Similarly, the front and sides will be encased with wooden reapers. There shall be a fire screen between the driver's cab and rear explosive body made of angle frame and one side covered with plain asbestos and other side with galvanized plain sheets duly fitted by means of bolts and screws. The sizes vary from vehicle to vehicle.

# Portable Explosive Magazine

We fabricate Portable Magazines approved by the "The Department of Explosives, Govt. of India, " Nagpur. The Inner Box of Magazine is welded perfectly from mild steel plate of 5 to 6 mm thick duly keeping vent at avoid Explosives gasses.

The magazine is lined with smooth joint less waterproof board of 10 mm thick from all sides and 25 mm thick at the floor. The Magazine are so designed that it would not heat up if kept exposed to sun. The door is made with 5 to 6mm thick plate duly lined with warp proof wooden board of 10 mm thick and fitted with heavy Dead lock.

# Chemical Agitators

Chemical agitators are majorly used to shake and blend the chemicals in large proportion. These agitators are widely demanded by various industries and by various sectors. These play vital role in promoting the reactions of chemicals and keeps them homogenous in bulk quantities and stores them for a great period of time. The product is made using the best grade of stainless steel and are availed in huge dimensions which makes the product spacious enough to accommodate loads of chemicals at a time. Chemical agitators are lubricated and painted from inside out and have great tensile strength to bear the concrete and harshness of the chemicals and avoid corrosion

# Pre-Engineered Buildings

Clients can avail from us an exclusive range of Steel Conventional Structure. It is known to all of us that steel generally used in construction as it gives economical solutions, ease to design, can be mould in any shape that is why we make use of high grade steel for the fabrication of these structures.

Features-

- Long Lasting
- Can withstand adverse climate
- Space efficient design
